👋 Hi, I'm Tany, a Bulgarian-Canadian multimedia designer. I make funky projects for a living in the fields of graphic/visual design and 3D design. I like to approach my work from different perspectives and exploring the paths less taken by industry experts. They say being a jack of all trades equates to a master of none, but I enjoy dabbling in different fields to see what interests me.

[work experience.]

Graphic Design Intern

RW Digital Marketing Agency
August 2021 – Present

- Responsible for creating content related to the field of digital marketing and SEO management for the agency's social media platforms.
- Worked alongside internship mentor on client projects and optimizing agency branding.

Digital Program Student

St. Catharines Museum & Welland Canals Centre
